

## AIR DEVIATIONS

### MONTE VISTA HIGH SCHOOL / SAN RAMON VALLEY HIGH SCHOOL

For the purposes of this tour, an air deviation is defined as a return air schedule or return airport(s) that is different from the group's return air schedule or return group airport(s).

All deviations are subject to the following:

- Deviations are limited and processed on a first-come / first-served basis – deviations are subject to availability and additional charges may apply
- NO deviations will be accepted after **FEBRUARY 15, 2019**
- Deviations can only be booked to return up to seven (7) days after the group's tour return date and must be approved by Cheryl Glass and Ed Cloyd before submitting the air deviation request form
- Deviations may depart from and/or arrive into any airport that is serviced by China Airlines as long as the outbound flight on June 9, 2019 is with the group
- Those deviating from the tour will be responsible for their own baggage fees on non-group flights
- Those deviating from the tour will be responsible for all airport transfers and any ground arrangements outside of the group tour inclusions
- The included Student/Group Protection Plan is valid for up to ten (10) days after the group's return date.

The Air Deviation Request Form is on the next page. Once the deviation form has been submitted to World Projects, Kendra DeBolt, your Project Manager, will confirm receipt and advise you of the costs and other details.
